WASHINGTON NEWS

Report of Naval Court Not Yet Received--New Cruisers Rechristened by Secretary Long.

RELIEF OF MAINE SURVIVORS

Joint Resolution on Cuban Question, Calling for Thorough Investigation of Conditions on the Island Introduced in the House.

Washington, March 21.—It can be stated positively and authoritatively that the report of the court of inquiry into the Maine disaster had not been received up to noon today. Present official information is that the report is not likely to be here before Thursday or Friday. The cause for the delay is not known, but it is assumed that the conclusions of the court are not yet in such exact form as will warrant an earlier presentation. The government has made no further purchases of warships, but negotiations in that line have been productive of at least one important result, namely: establishing that unless the battleship General O'Higgins becomes the property of the United States it will not be sold at all. Spain will not be able to secure this war vessel. Practically the same condition obtains as to the Argentine armored cruiser San Martin.

It is undoubtedly true that the Maine's officers who reached here on Saturday expressed their personal opinion that the cause of the explosion was external.

New Cruiser to Be Called New Orleans. Secretary Long issued a letter stating that the Amazonas, the cruiser recently purchased at New Castle-on-Tyne from the Brazilian government, hereafter shall bear the name of New Orleans, in honor of the principal city of Louisiana.

Rechristened the Albany. Secretary Long has rechristened the cruiser Abruzzi, purchased from Brazil, to the Albany, in honor of the capital of the Empire state.

Settlement of Pacific Road Debts. The senate committee on Pacific railways today decided to report the bills for the settlement of the Central Pacific and Sioux City & Pacific debts. The secretary of the treasury, secretary of the interior and attorney general are created a commission to settle the debt and make such extensions as may be necessary to secure the government's interest. In the case of the Central Pacific, an amendment was adopted providing that the full amount of the government's principal and interest must be paid. No limitation was placed on the Sioux City & Pacific.

Nomination Confirmed. The senate today confirmed the nomination of Webster Street, as chief justice of the supreme court of Arizona.

Short Senate Session. The senate after passing some minor bills to which there was no objection, adjourned until tomorrow.

Bill for Relief of Maine Survivors.

In the house, Speaker Reed recognized Mr. Boutelle, chairman of the committee on naval affairs, who called up the bill for the relief of the survivors and victims of the Maine disaster. Mr. Boutelle said the purpose of the bill was to provide for the relief of the survivors and victims of the Maine disaster. The bill was well understood and thought any debate was unnecessary. Mr. Bailey said there was no disposition on his side of the house to debate the bill. Without any debate, therefore, the bill was read by sections for amendments. Mr. Cannon, chairman of the committee on appropriations, offered an amendment to allow the surviving officers and men 12 months' pay without rations, in full compensation for the losses sustained. He thought that provision for compensation for actual losses might lead some of the survivors into the temptation of manufacturing their claims. Mr. Boutelle explained that the bill had been drawn along the lines of the bill passed for the relief of the Samoan victims. The committee did not believe the survivors should be reimbursed beyond the actual losses incurred.

The house rejected the Cannon amendment and passed the bill unanimously. Representative Cousins made an eloquent speech announcing that the patient and patriotic people were ready for truth and their duty. The house then took up a private calendar.

Joint Cuban Resolution.

Resolved, That a joint committee of seven members of the senate and seven members of the house be created to consider the question of our relations with Spain. That such committee be authorized to send for persons and papers, take evidence and report with as little delay as possible, the conditions that prevail in Cuba, what part of the Spanish debt is a burden on the revenues collected in the island, what protection Americans and American interests are given by the Spanish, and the truth regarding the reported inhumanities and atrocities.
